ANTIOXIDANT WATER	17		

Shinsei Water™

Shinsei is derived from a Japanese word, which means "Reborn to Origin". It describes water reborn to the state in which was often found in nature before the earth became polluted. Shinsei Water™ will help your body reborn to its original condition when you were young, including the skin and organs.

Ionizer is a product of Japanese technology where more research has been done on drinking water than anywhere else in the world. Shinsei has become a household name in Japan and now it is mostly used to describe pure, healthy, alkaline drinking water that is rich in minerals, purged of impurities and ionized through electrolysis to obtain active hydrogen with abundant extra electrons. These extra electrons impart strong antioxidant properties to the drinking water.

Different

What makes Shinsei Water™ different?

- Balances body pH with alkaline-rich minerals
- Powerful antioxidant with reduction ions neutralize free radicals
- Smaller water cluster size that maximizes hydration
- Powered by Ayro's progressive water technology

"Water is the only drink for a wise person."

Henry David Thoreau (1817-1862)

BALANCE

....with Alkaline pH A balanced body pH is essential for optimal health. Normally, the body maintains pH level between 7.34 ~ 7.45. Modern lifestyles such as eating acid-forming foods, drinking alcohol and sodas, not getting enough sleep, smoking, and daily stress can alter your body's internal balance. Shinsei Water balances your body pH naturally. It is water like no others — Healthy, Natural, and Ionized. It is the epitome of a healthy lifestyle — a balanced you. Shinsei Water tastes great and enhances the flavor of all your foods and beverages. Its smaller water molecules enter the cells more easily for maximum hydration and detoxification.

HEALTHY

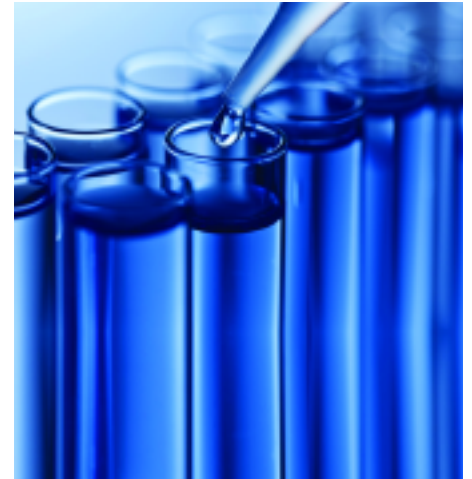

..... with Natural Minerals Just like the foods you eat, the quality of water you drink everyday is directly associated with your health. Any naturally dissolved minerals such as calcium, magnesium and potassium are essential for good health. In fact, drinking pure or distilled water for prolonged periods may increase the risks of a variety of health problems. Shinsei Water replenishes your body with naturally dissolved alkaline-rich minerals using the most advanced proprietary technology. It gives your body the vital nutrients every time you drink — effortlessly.

pH & ORP

pH refers to the system of describing acidity or alkalinity of a substance. pH is also used to refer the acid-base balance in the human body. Our body should be maintained at a precise pH (7.34 - 7.45) for healthy functioning of all the cells and tissues. Any deviation in this balance can lead to disturbance in the normal functioning of our body.

The antioxidant properties of a substance can be determined by ORP, which is a measure of oxidizing ions (such as chloride) and reducing ions (such as calcium). Oxidizing ions steal electrons from other substances and reducing ions donate electrons thereby giving them the ability to neutralize free radicals. Positive ORP value indicates more oxidizing ions (lower pH) and negative ORP value indicates more reducing ions (higher pH). Shinsei Water for drinking has an ORP value ranging up to -500mV.

5

TYPES OF WATER FOR EVERYDAY USE

WATER FOR HEALTH	pH 8.5-9.5	Shinsei Water™
CLEAN WATER	pH 7.0	Filtered Clean Water
WATER FOR BEAUTY	pH 4.5-6.5	Acidic Water
WATER FOR SANITIZING	pH 2.3-2.7	Strong Acidic Water
WATER FOR THE ENVIRONMENT	pH 10+	Strong Alkaline Water

1 pH 8.5~9.5 Alkaline Shinsei Water™

Water for Health

- Hydrate and detox your body with antioxidants
- Reduce cooking time with excellent conductivity
- Enhance the flavor of raw and cooked foods
- Improve the color, taste and aroma of coffee and tea
- Balance the effects of acidic foods and stomach acid

2 pH 7.0

Filtered Clean Water

- Deliver clean and delicious water removed of chlorine and impurities
- Best for taking prescription medication for optimal absorption
- Perfect for preparing infant formula

3 pH 4.5~6.5 Acidic Water (not for drinking)

Water for Beauty

- Tighten pores and tone the skin with powerful firming effects
- Smooth the skin tone for more radiant glow and younger look

4 pH 2.3~2.7 Strong Acidic Water (not for drinking)

Water for Sanitizing

- Safe hand sanitizer with powerful antibacterial properties
- Perfect for washing produce and meat to reduce the risk of food-borne illnesses
- Sanitize food preparation equipments including knives, cutting boards, dishes, and towels
- Disinfect most hard surfaces such as countertops and tables

5 pH 10+ Strong Alkaline Shinsei Water™ (not for drinking)

Water for the Environment

- Excellent alternative to soaps, detergents, and harsh cleaning chemicals
- Remove stains from many surfaces and materials including dishes, knives, utensils, floors, carpet and laundry
- Wash fruits and vegetables to minimize pesticide

IONIZER

the world. All Ayro's generators are approved as a medical device by the Japanese Ministry of Health, Labor and Welfare. Approval No. 21500BZZ0071900

PLATINUMSERIES

PL99 Continuous Shinsei Water™ and Strong Acidic Water Generator
With its newest design and most advanced technology.

- Built with most advanced water ionization technology
- Five superior quality platinum coated titanium electrode plates
- Five types of water: Shinsei, Strong Shinsei, Acidic, Strong Acidic, Filtered Clean
- Large LCD display identifies pH, ORP, water flow rate and filter usage
- Easy to use one-touch panel operation
- High-powered carbon block filter effectively controls build-up of microorganisms (bacteria, algae, fungi) and has maximum reduction of water contaminants including: chlorine tastes and odor; organic chemical compounds (household chemicals, pesticides), total organic carbon and heavy metals (lead, mercury, nickel, chromium), parasites (Cryptosporidium, Giardia) and Cysts.

The smart design of our flagship model PL99 offers the finest in water technology that includes a large-sized liquid crystal display notifying the user of the water being produced, pH and ORP. The micro-computer system monitors water flow rate and filter cartridge usage. Different levels of Shinsei Water and acidic water can be selected with just a simple touch of a button from the color coded control panel. Life is made easier with the automatic cleaning feature - the system is programmed to periodically clean the electrolysis chamber maintaining the highest level of performance.

"Health is a state of complete harmony of the body, mind and spirit. When one is free from physical disabilities and mental distractions, the gates of the soul open."

B.K.S.Iyenga

PLATINUMSERIES

PL55 Continuous Shinsei Water™ Generator

- Three superior quality platinum coated titanium electrode plates
- Three types of water : Shinsei, Acidic, Filtered Clean
- LCD display identifies the type of water produced, pH , water flow rate and filter usage.
- Easy to use one-touch panel operation
- High-powered carbon block filter effectively controls build-up of microorganisms (bacteria, algae, fungi) and has maximum reduction of water contaminants including: chlorine tastes and odor; organic chemical compounds (household chemicals, pesticides), total organic carbon and heavy metals (lead, mercury, nickel and chromium), parasites (Cryptosporidium, Giardia) and Cysts.

Shinsei Water™ tastes as good as it is healthy for you. By process of electrolysis, Shinsei Water™ generators can continuously generate ionized water of various pH levels; the result is water that can be used for various purposes: drinking, cooking, beauty and cleaning. Shinsei Water™ is water in its most perfect form. Its advanced technology and ionization process not only changes traditional H₂O but it improves on its health value.

"Health is the greatest gift, contentment the greatest wealth, faithfulness the best relationship."

*Buddha (563 BC-483BC)
Founder of Buddhism*

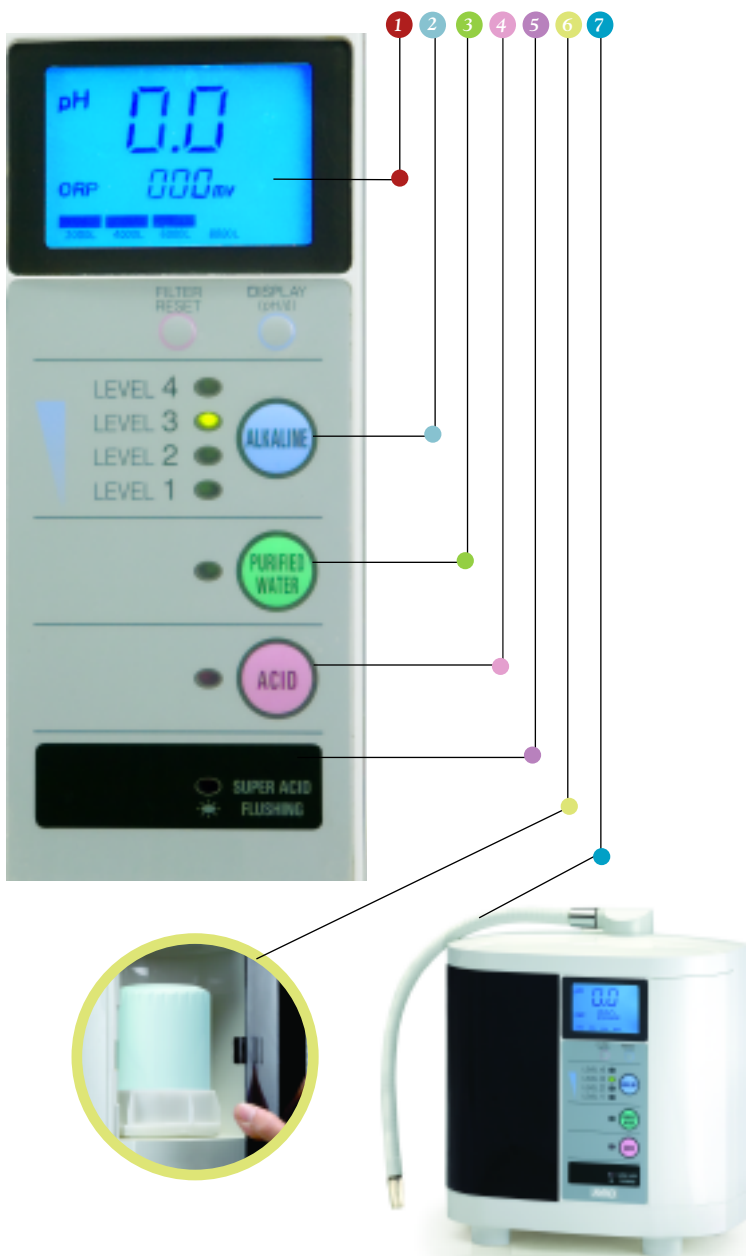

IONIZER
Milleniumseries

ML900

The smart design of model ML-900 offers the finest in water technology with exceptional filtering capacity and constant Shinsei Water. The five platinum coated titanium electrode plates of ML-900 mean the system is highly efficient with superior processing capacity.

- 1 **LARGE LCD DISPLAY**
with tri-color pH, ORP, water flow, and filter usage indicator
- 2 **4 LEVELS OF SHINSEI WATER™**
(pH 8.5~9.9*)
- 3 **FILTER CLEAN WATER**
(pH 7.0)
- 4 **ACIDIC WATER** (pH 4.5~6.5*)
- 5 **STRONG ACIDIC WATER** (pH < 2.7*)
STRONG SHINSEI WATER™
(pH 10.0~11.5*)
- 6 **FILTERING MEDIUM**
Carbon block filter with KDF media
- 7 **SMART DESIGN FEXIBLE PIPE**

OTHER FEATURES

- Built-in temperature sensor
- Easy to use one-touch panel operation
- Microcomputer monitored flow rate
- Automatic self-cleaning electrolysis chamber maintains the highest level of performance
- Five superior quality platinum coated titanium electrolysis plates — the best in the industry
- System can generate water with ORP ranging from +1130 mV to -800 mV, giving its powerful cleaning and antioxidant properties

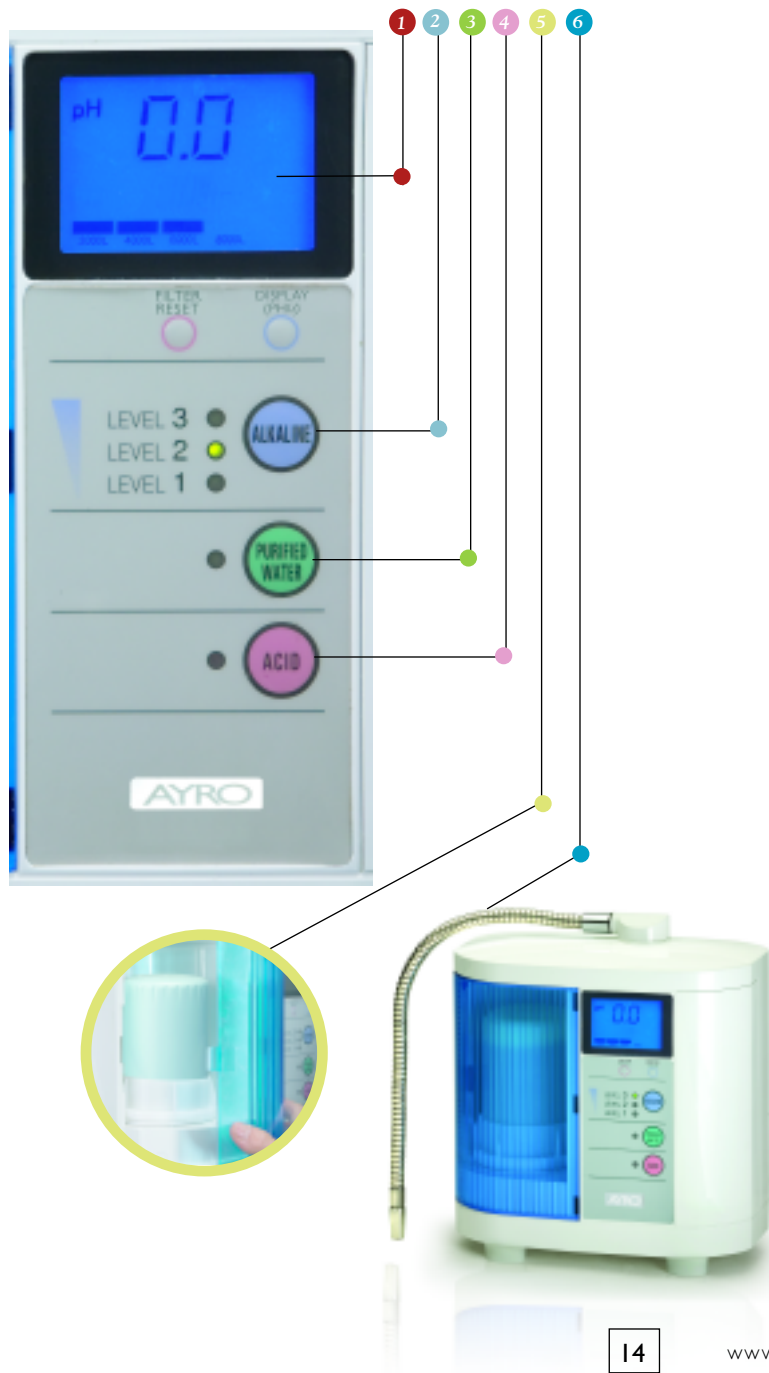

*Note: All pH levels are approximate, ± 0.25 depending on water source.

Milleniumseries

ML500

is a union of the best features of ML900 with the economy of the ML300. By process of electrolysis, ML500 can continuously produce Shinsei Water™ for various pH levels suitable for many applications.

- 1 LARGE LCD DISPLAY**
with tri-color pH, water flow, and filter usage indicator
- 2 3 LEVELS OF SHINSEI WATER™**
(pH 8.5~9.5*)
- 3 FILTER CLEAN WATER** (pH 7.0)
- 4 ACIDIC WATER** (pH 4.5~6.5*)
- 5 FILTERING MEDIUM**
Carbon block filter with KDF media
- 6 SMART DESIGN FEXIBLE PIPE**

OTHER FEATURES

- Built-in temperature sensor
- Easy to use one-touch panel operation
- Microcomputer monitored flow rate
- Automatic self-cleaning electrolysis chamber maintains the highest level of performance
- Three superior quality platinum coated titanium electrolysis plates
- System is equipped with five-layered, high powered water cleaning filter creating delicious water

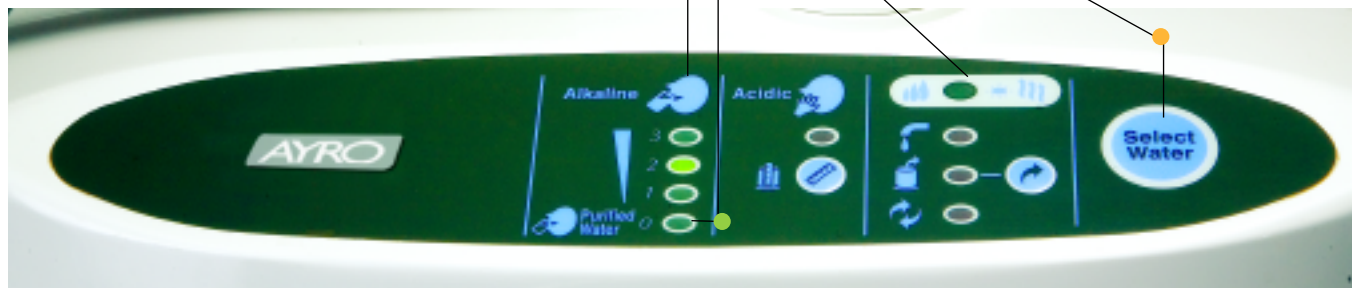

*Note: All pH levels are approximate, ± 0.25 depending on water source.

Milleniumseries

ML300

Created from cutting-edge technology, the ML-300 model is an economical alternative which features all the benefits of Shinsei Water™ by delivering healthy water with antioxidants while filtering out harmful chemicals from the tap.

1 **3 LEVELS OF SHINSEI WATER™**
(pH 8.5~9.5*)

2 **FILTER CLEAN WATER** (pH 7.0)

3 **ACIDIC WATER** (pH 4.5~6.5*)

4 **PUSH BUTTON OPERATION**

5 **FILTERING MEDIUM**
Carbon block filter with KDF media

6 **SMART DESIGN FLEXIBLE PIPE**

OTHER FEATURES

- Built-in temperature sensor
- Microcomputer monitored flow rate
- Automatic self-cleaning electrolysis chamber maintains the highest level of performance
- Three superior quality platinum coated titanium electrolysis plates
- System generates Shinsei Water™, the most perfect form of water through its advanced technology and ionization process

*Note: All pH levels are approximate, ± 0.25 depending on water source.

FIRST OF ITS KIND Through patent-pending, proprietary technology, **AYRO™ HT PLUS** is versatile enough to be used in conjunction with a household reverse osmosis (RO) filtering system. Unlike any other products currently on the market, **AYRO™ HT PLUS** is the first and only system able to use (RO) or pure water to generate Antioxidant Water.

BY DRINKING ANTIOXIDANT WATER

from a minerals-rich source – like AYRO™ HT PLUS your body will begin to function efficiently once again, as the problems resulting from the consumption of pure water naturally correct themselves.

AYRO™ HT PLUS significantly boosts the health profile of water, enhances minerals and antioxidants content. Independent studies confirmed the AYRO™ HT PLUS actually increases the essential minerals, antioxidant property and hydration-efficiency of water.

ANTIOXIDANT WATER GENERATOR

AYRO™ HT PLUS is modern, compact and unique. It delivers pure and healthy drinking water that is rich in minerals, purged of impurities and rich in active hydrogen with abundant electrons. These electrons impart strong antioxidant properties to prevent or counteract the aging process and oxidative damage to the body.

Through a proprietary technology with advanced multi-stage filtering process, **AYRO™ HT PLUS** offers convenience and value while keeping your drinking water safe from harmful chemicals, pollutants, algae, bacteria, parasites and microorganisms. The high-quality KDF media, granular activated carbon and 0.5 micron carbon block is surrounded by a reliable and durable housing that sits perfectly on your counter top for clean and great tasting water at a fraction of the cost of bottled water. **AYRO™ HT PLUS** is 50% smaller than most counter top filtration unit and requires no special tools or expertise to install.

ANTIOXIDANT WATER GENERATOR

AYRO™ HT PLUS is easily added onto your faucet requiring no special tools or expertise. It only takes about 5 minutes or less to install; Just connect **AYRO™ HT PLUS** onto the water outlet. It's that simple!

AYRO™

HT PLUS

CONVENIENT

AFFORDABLE

EASY TO INSTALL

AYRO™ HT PLUS is created from cutting-edge technology featuring all the benefits of healthy water with alkaline minerals and antioxidants while filtering out harmful chemicals from the tap. It is equipped with a six-layered, high-powered water cleaning filter with alkaline minerals and antioxidant media creating delicious and healthy water. First, regular tap water is filtered through a sediment pad removing sediments. Then, water passes through the granular activated carbon, KDF media and 0.5 micron carbon block which removes odors, impurities, chemical contaminants, bacteria and microorganisms. At the very last stage, water is recharged with alkaline minerals and antioxidants. As a unique countertop filtration system with antioxidants, **AYRO™ HT PLUS** is perfect for your home and office. It is small enough to travel with and easily connects to virtually any hotel room faucets.

AYRO™ HT sediment filter removes sand, silt, rust, dirt and scale particles. It is manufactured from a durable polypropylene cord that is wound in a precise pattern around the core providing greater filtration surface area. **AYRO™ HT** sediment filter is the best pre-filtration unit for most municipal and well water.

Colors Available

- Free-standing countertop filtration system
- Advanced multi-stage filtration technology with highest grade coconut shell carbon and KDF media
- Exclusive carbon-block reduces >99.95% of particles 0.5 micron and larger including pathogenic bacteria
- Generates alkaline antioxidant water pH ranging up to 9.5 & OPR ranging up to -500 mV*
- Materials and components are tested and NSF standard 42 and 61 certified
- Compact and small enough to pack in your suitcase and easily connects to virtually any home, office & hotel room faucets
- Easy-to-change replacement filter provides up to 6-12 months of filter life*

*Actual performance may vary depending on local water conditions and water volume used.

Filter Cartridges

HIGH PERFORMANCE FILTER CARTRIDGES are manufactured using a patented process with FDA-compliant materials for chlorine taste and odor reduction. Made in U.S.A.

PREMIUM PERFORMANCE FILTER CARTRIDGES are manufactured using a patented process with FDA-compliant materials, KDF media for heavy metals reduction and specially designed adsorbent medium for VOC and TOC reduction. Made in U.S.A.

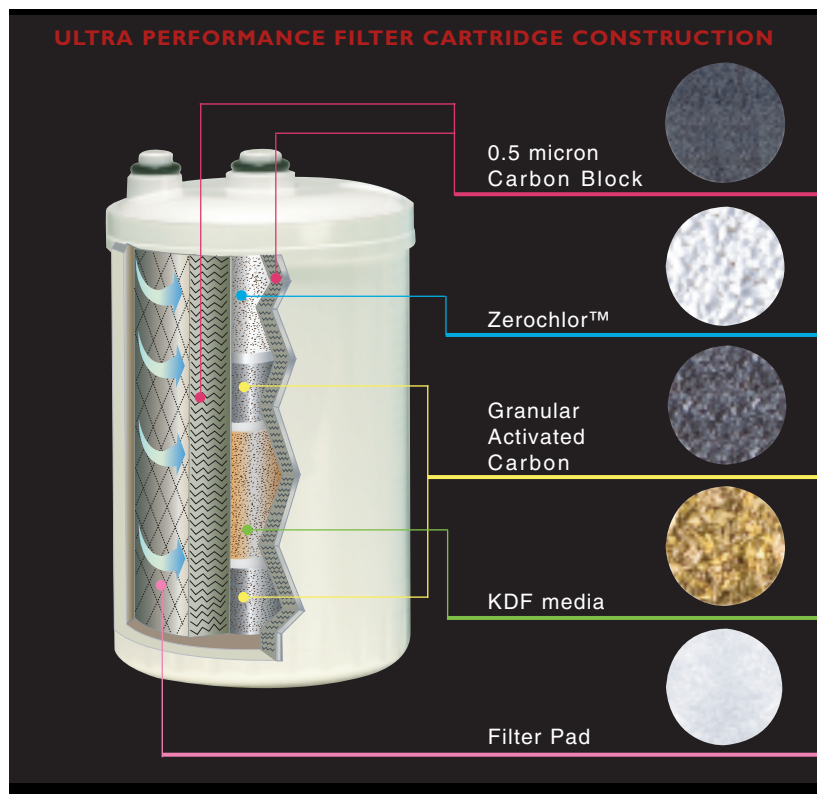

ULTRA PERFORMANCE FILTER CARTRIDGES are manufactured using a patented process with FDA-compliant materials, KDF media for heavy metals reduction and specially designed adsorbent medium for VOC, TOC, cyst, Giardia & Cryptosporidium reduction. Made in U.S.A.

CLEANING CARTRIDGE New design with regulated flow for optimum performance. Simply use the cleaning cartridge once every 3-6 months to keep your ionizer in optimum performance (or more frequently depending on usage and source water quality). Made in U.S.A.

E-CLEANER A reusable cleaning cartridge with cleaning powder. New design with regulated flow for optimum performance. Made in U.S.A.

Materials and components used are tested and certified by NSF International against NSF standard 61. Components used for chlorine reduction capacity are based on laboratory testing conducted using test protocol contained in NSF standard 42.

AYRO™ SHOWER FILTER

“Complete Your Home Spa Experience”

AYRO™ shower filter effectively removes 90-95% of the free chlorine every time you shower. Its specially formulated KDF media is highly efficient with superior chlorine removal capacity. The crystalline quartz technology softens the water and delivers an energy-enhanced shower. Made in USA

- Healthier and younger looking skin
- Softer more manageable hair
- Relief from dry skin and scalp
- Reduces fading of color-treated hair
- Improved lathering and sudsing

SHOWERHEAD REPLACEMENT FILTER CARTRIDGE Simply use the cartridge once every 6-12 months to keep your showerhead in optimum performance (or more frequently depending on water quality).

BPA-FREE WATER BOTTLES

“Have Healthy Ayro™ Advanced Alkaline Shinsei Water™ Anywhere”

At Ayro™ we continuously strive for sustainability and a green environment. Take your Ayro™ Advanced Alkaline **Shinsei Water™** everywhere you go with the reusable and durable BPA-free bottle that is good for you AND the environment. AYRO™ BPA-free bottle is available in two sizes 14 oz & 28 oz. Made in USA

ABOUT AYRO

AYRO is the direct importer/authorized dealer of original Japanese manufactured electrolytic water ionization systems and manufacturer of AYRO series water filtration systems. Formed by a team of health-conscious individuals who benefited from drinking alkaline water; our goals are to disseminate the importance of a healthy body pH, to provide quality alkaline water and unsurpassed customer service.

Established in 2008, it has evolved to a global entity with development and sales channels worldwide. As a member of the Water Quality Association since 2008, AYRO continues to fulfill its responsibility as an environmentally conscious company.

OUR MISSION

We see our customers as being smart, sophisticated and health and environmentally conscious. We share these same qualities with you. The leadership as well as the staff of AYRO are committed as you are to health promotion, anti-aging, natural products, and innovative technology. It is our goal to share the wonderful benefits of AYRO Advanced Alkaline Water System with you.

You can be assured that the commitment of AYRO is demonstrated in our drive to provide high quality products and excellent service. Our manufacturer has been manufacturing and distributing electrolytic water generators for many years with the highest quality assurance. You can be assured that when you buy from us you're getting the best in reputation, quality, and value.

In addition, it's our promise to you that we will continue to strive for sustainability and a green environment by reducing the toxic waste generated by plastic bottles and gallons of water wasted from other types of water filtration systems such as reverse osmosis. There is no other system in the market that is as versatile and powerful as the AYRO Advanced Alkaline Water System.
